Community Reviews for this School

Posted: 5/22/2023 by Middle school student

It is an overall good school, with suitable activities and you should try the FLL it is a good program The Teachers are great The principal is great and the coaches are great too, so far so good

Posted: 11/27/2021 by Alum

I studied in Sherwood Githens Middle school during 6th grade. The community is welcoming, filled with professionals and exciting activities. The educational institution shared an individual approach with every single student, as each student received direct help from the teacher when it came to tackling issues, such as low grades, new challenging projects or fights, clashes between students. In addition, the school was strict, as any wrong action or misbehaviour could have led to detention. Having had come from Armenia, I was able to meet new friends, get accustomed to an ecosystem of the revolutionized school curriculum and was involved in a variety of projects. I surely recommend the school to every student, as a great start to their middle school journey. In all honesty, no flaws come to my mind when thinking of the school. My only recommendation to the school is to change the sport involvement policy, by organising such events more often and recruiting more students.

Community Reviews for this School

Jordan High School has a great college prep program. So many AP and honors courses in all subject areas to choose from. They have a fabulous theater program, agriculture pathway, and lots to choose from for sports and activities. Administration is supportive and communicative.

Overall, I had a great experience at Jordan High School. I was blessed to be with so many wonderful teachers and create strong connections with them that will last for a lifetime. I was also given the opportunity to participate in sports, clubs, and other extracurricular activities to get involved in the community. Even though I did have some wonderful teachers and made amazing friends, I also had other not so great classes where I had to learn most of the content on my own. I would like to see the communication and administration part of the school improve as well as their organization when it comes to big events.

My life changed when I started attending Jordan High School, and that says a lot because I attended 3 high schools! My family would move around a lot so it was normal for me to not fit in or get thrown off track; Jordan changed all of that for me! I felt welcomed from my first day, and I even enrolled late and was brought up to speed by our amazing principal, Ms. Taylor! There was more diversity at the school and I was able to meet some amazing individuals that I still keep up with to this day! I revisit Jordan every once in a while, and it's always like I never left. The only issue I had with the school was the counseling services that were offered, the counselor I was assigned to wasn't very helpful and told me I wouldn't be able to go to my dream college, she was wrong by the way, and other counselors weren't trying to help students they weren't assigned to. Other than that, everything at Jordan was great! I'm glad that's the school I graduated from!

I would like to see a change in how they administer information to students. There is often a miscommunication between students and staff. Especially for low-income students, they don't always know about all the opportunities and resources provided at my school.

I think our facilities are adequate, but could be better for science classes. We've had multiple gun threats this semester. I think that our sports are great, as we are competitive in most sports, and have great support from students, teachers, and parents.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
